**Clément Jacquemaire**

Geographer – Town planner

During his training in geography, and subsequently in town planning, Clément Jacquemaire developed a particular interest in subjects involving complex dynamics. A desire to create new processes that were simpler, more effective and more sustainable than their predecessors led him to create the Agence Odonata with Étienne Habera, specialised in social innovation in the field of town planning, geography and urban development.

Projects with the Forum**Feasibility of Concept Y**

Agence Odonata : Étienne Habera, Clément Jacquemaire
