La Fabrique Écologique

Think Tank

Created in 2013, La Fabrique Écologique, a foundation for the environment, is a think-and-do-tank that aims to promote ecology and sustainable development on the basis of pragmatic and concrete proposals. With numerous publications on various topics and a network of nearly 800 listed and active experts, its work is recognized for being serious and innovative.

Projects with the Forum

Autonomous vehicles: what role do they have in the mobility transition?
